The Puzielli Real Estate Agency offers a double garage in the historic center of Fermo, in the Marche Region. This garage, of about 29 square meters, is located on the third basement floor of an elegant building equipped with two elevators, ensuring comfort and accessibility.

The garage is easily accessible thanks to a ramp with an optimal slope, inserted in a modern and well-kept building. The structure, made of high-quality materials, boasts a concrete floor that ensures durability and ease of maintenance. The combination of this floor with well-designed interior lighting offers safety and convenience in everyday use. Access to the garage is via a safe and sturdy overhead door, compliant with the latest safety standards. In addition, the location inside the garage is optimal: well ventilated and equipped with adequate lighting to ensure visibility even in the evening hours. Thanks to its generous surface area, this garage allows you to comfortably park two medium-sized cars or a car and a motorbike, with additional space available for bicycles, shelving or various equipment. Furthermore, thanks to the additional square footage, the space is easily customizable according to the specific needs of the buyer, who could, for example, divide it to create a work area or additional storage room.

This garage is perfect for those who need personal, safe and convenient parking or for a practical storage in the heart of the city.
